Harga sawit yang stabil tinggi menyebabkan permintaan pupuk kian tak terbendung. Hal ini mendorong PT Saraswanti Anugerah Makmur Tbk (SAMF) bersiaga dengan mengantisipasi persediaan bahan baku agar SAMF dapat memenuhi permintaan pupuk tersebut.

The stable high price of palm oil causes the demand for fertilizer to become increasingly unstoppable. The increasing demand has prompted PT Saraswanti Anugerah Makmur Tbk (SAMF) to be on the alert by anticipating the supply of raw materials so that SAMF can meet the need for fertilizer.

Sebagai upaya untuk menjamin ketersediaan bahan baku, SAMF resmi bekerjasama dengan salah satu distributor pupuk jenis KCL/MOP, CHAMPA INTERNATIONAL Pte. Ltd, yang berkantor di Singapura, untuk pengamanan kebutuhan bahan baku sepanjang tahun 2022.

To ensure the availability of raw materials, SAMF officially cooperates with one of the distributors of KCL/MOP fertilizers, CHAMPA INTERNATIONAL Pte. Ltd, based in Singapore, to safeguard raw material needs throughout 2022.

Pengamanan kebutuhan bahan baku KCL/MOP sebanyak 75.000MT diperuntukan bagi salah satu anak usaha SAMF, yakni PT Anugerah Pupuk Makmur (APM). Bahan baku akan dikirim dari Laos via Vietnam ke lokasi pabrik APM yang berada di Sampit, Kalimantan Tengah.

Securing the need for raw materials for KCL/MOP as much as 75,000MT is intended for one of SAMF's subsidiaries, namely PT Anugerah Pupuk Makmur (APM). The raw materials will be sent from Laos via Vietnam to the APM factory in Sampit, Central Kalimantan.
